## 1.0 GENERAL INSTRUCTIONS

Complete this section electronically using readily available information and contact information from appropriate individuals. A Site Screening Assessment Contact Log (Attachment A) should be used to document information gained through correspondence, interviews, file reviews and telephone calls. Add extra pages if necessary.

Latitude and Longitude coordinate and accompanying Site Evaluation Maps should be requested via email to the EPA Document Control Officer, Joan Simmons.

### 1.3 CERCLA Eligibility

Complete the following checklist. If **Yes** is marked, the site may not be eligible for CERCLA assessment without further justification. Please explain in the Decision / Rationale section below.

	YES	NO
1. Does the site already appear in CERCLIS?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Is the release from products that are part of the structure of, and result in exposure within, residential buildings or businesses or community structures?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Does the site consist of a release of a naturally occurring substance in its unaltered form, or altered solely through naturally occurring processes or phenomena, from a location where it is naturally found?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Is the release into a public or private drinking water supply due to deterioration of the system through ordinary use?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. Is some other program actively involved with the site (i.e., another Federal, State, or Tribal program)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Are the hazardous substances potentially released at the site regulated under a statutory exclusion (i.e., petroleum, natural gas, natural gas liquids, synthetic gas usable for fuel, normal application of fertilizer, release located in a workplace, naturally occurring, or regulated by the NRC, UMTRCA, or OSHA)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. Are the hazardous substances potentially released at the site excluded by policy considerations (e.g., deferral to RCRA Corrective Action)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8. Is there sufficient documentation that clearly demonstrates that there is no potential for a release that could cause adverse environmental or human health impacts (e.g., comprehensive remedial investigation equivalent data showing no release above ARARs, completed removal action, documentation showing that no hazardous substance releases have occurred, EPA approved risk assessment completed)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Part of a NPL-Site?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Briefly explain all "yes" answers in "Decision/Rationale" section below. Use number reference.

**Number Explanation of "yes" answer:**

- 1- Site appears in CERCLIS.
- 5- The County of San Bernardino owns the site, and it is regulated by the RWQCB and the California Integrated Waste Management Board (CIWMB). San Bernardino County Environmental Health – Local Enforcement Agency implements the CIWMB's regulations.
- 8- The landfill has a release of leachate that is controlled at the landfill boundary by a slurry wall.

	Yes	No
<b>SITE IS CERCLA ELIGIBLE</b>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Note: This recommendation should be included on Executive Summary Page		

## 1.4 Removal Assessment Eligibility

Use the following eligibility criteria to determine if the site should be referred for emergency response. If the answer to any question is yes, get the site may be eligible for referral emergency response. If a question cannot be answered, explain why in the Comments section below.

- |    |   |   |
|----|---|---|
| 1. | Is there actual or potential exposure to nearby populations, animals, or the food chain from hazardous substances, pollutants, or contaminants?                                   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2. | Is there actual or potential contamination of drinking supplies or sensitive ecosystems?  | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 3. | Are hazardous substances, pollutants, or contaminants in drums, barrels, tanks, or other bulk storage containers which may pose a threat of release?                              | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 4. | Are there high levels of hazardous substances, pollutants, or contaminants are soils largely at or near the surface, which may migrate and affect populations or the environment? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 5. | Could weather conditions cause hazardous substances, pollutants, or contaminants to migrate or be released?   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 6. | Is there a threat of fire or explosion?   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 7. | Are there appropriate Federal or State response mechanisms to respond to the release or potential release?  | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 8. | Are there other situations or factors which may pose threats to public health, welfare, or the environment?   | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 9. | For the situation where there appears to be primarily a groundwater contamination problem, is there a near-surface source which can be removed?                                   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

Please explain all "yes" answer(s), noting question number (character max = 400, attach additional page if necessary):

7- The County of San Bernardino owns the site, and it is regulated by the RWQCB and the California Integrated Waste Management Board (CIWMB). San Bernardino County Environmental Health – Local Enforcement Agency implements the CIWMB's regulations.

8- There is potential for landfill gas migration, but there is an active gas extraction and treatment system at the landfill. In 2004 there was a case of illegal disposal of soil containing DDT. However, the worst of the stockpile was removed and properly disposed of and the rest was used as daily cover at the landfill (in consultation and approval by DTSC).

	Yes	No
Refer to Emergency Response	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Note: This recommendation should be included on Executive Summary Page		

### 3.0 REGULATORY AND ENFORCEMENT HISTORY

Provide information regarding past and present regulatory and enforcement activity associated with the site. Citations and reference documentation should be included for **initiation, status, and certification** documents used for substantiating site status. Web links may be used when accompanying a short narrative regarding what the document in the link states about the site. *Sections 3.1 through 3.4 are limited of 1800 characters (approximately two paragraphs). Responses requiring more space should be included as a reference to this report and identified below with the statement "See Attachment F".*

*This section, along with section 1 required for Other Cleanup Activity (OCA sites ("G4 sites"))*

Primary Regulatory Agency Involved ☐ Federal ☒ State ☒ Local ☐ None

Note: This recommendation should be included on Executive Summary Page

#### 3.1 Regulatory Agencies: Federal

United States Environmental Protection Agency (U.S. EPA) discovered the site on 11/01/1979. A Preliminary Assessment (PA) was completed on 11/1/1984. Another PA was completed on 11/16/1988. A site inspection was conducted on 9/15/1989, and a Site Reassessment was completed on 11/27/2002.

See attachment F.

#### 3.2 Regulatory Agencies: State

The County of San Bernardino owns the site, and it is regulated by the Regional Water Quality Control Board (RWQCB) and the California Integrated Waste Management Board (CIWMB). San Bernardino County Environmental Health – Local Enforcement Agency implements the CIWMB's regulations.

The site is an active municipal solid waste disposal landfill. There is no special project going on at the moment, however, there are consultants that carry out a routine groundwater monitoring program required by RWQCB waste discharge requirements and a solid waste facility permit from the CIWMB. Another consultant designed and is managing the landfill gas extraction system at the landfill.

In 2004 there was a case of illegal disposal of soil containing DDT. However, the worst of the stockpile was removed and properly disposed of and the rest was used as daily cover at the landfill, in consultation with and approval by DTSC.

### 3.3 Regulatory Agencies: Local

The landfill (site) is owned and operated by the San Bernardino County Environmental Health – Local Enforcement Agency which implements the California Integrated Waste Management Board's regulations.

### 3.4 PRP Viability

The site is owned by the County of San Bernardino.

## EPA REGION IX SITE SCREENING CHECKLIST

This review checklist is to be used by individual site screening staff when reviewing sites which have been brought to the attention of EPA or the State. Each site is reviewed on the merits of the discovery documentation and additional information gathered during the screening process. The guiding principal in evaluating a given site is to use common sense in assessing the information and subsequently presenting the site and its known hazardous potential to the SST.

### 1.0 GENERAL INSTRUCTIONS

Complete Section 1 for the site using readily available information and contacting appropriate individuals. A contact log (Attachment A) should be used to document information gained through correspondence, interviews, and telephone calls. Handwriting is acceptable if it is legible. Attach extra pages if necessary.

## 1.2 CERCLA Eligibility

If the answer to question 1 is "No", or if the answer to any question of 2 through 8 is "Yes", the site is ineligible for CERCLA evaluation and the decision at the bottom of this page is "No Further Action Under CERCLA". The answers to questions 9 through 16 should be used to identify sites that may not be appropriate for CERCLA evaluation without further justification. If a question cannot be answered, explain why in the Comments section below.
